

**Date:**

**1. In the beginning ...**

When did your coproduction journey start (and finish if relevant)? Why did you get involved?

*What did you hope to contribute/gain from this?*

Describe **your** project journey – how have things changed and developed for your project/team over time or so far?

**2. Because of that ...**

What have been the key milestones and achievements?

**What's helped those things happen?**

*For example, in relation to **how** your project has worked, where, for whom etc*

**What have been the key challenges:**

- for you and your project?
- for expert partners involved in coproduction?
- for professional partners involved in coproduction

**How have you tackled these challenges?**

*What have you tried?*

**What have you learned from these experiences?**

*Anything **unexpected** (e.g. how you have had to adapt what you're doing & why, what has come up that you weren't expecting or stand out, lightbulb moments?)*

**3. Until finally ...**

**What are you most pleased about?**

**What are you concerned about?**

**What's been the most significant change for:**

- the people you've worked with/supported?
- you personally?
- the project as a whole?

**What has helped all these things happen?**

**4. Looking to the future**

**What next for you/the pilot now?**

*What needs to happen to build on your successes and achievements, as well as dealing with the risks/challenges?*
