This 5 day programme enables your organisation to develop your skills and provision to

- Understand and apply housing rights for people in different types of housing and homes
- Ensure people have choice and control around their own lives whilst maintaining duty of care and appropriate use of the Mental Capacity Act
- Engage with the people you support and their families and community

The programme includes an **independent review** with staff and people who use your services to contextualise and benchmark your support. Our team will help you to **develop an action plan** that ensures you are improving services whilst meeting your legal requirements for your support provision.

It can be useful for you if you:

- Want to demonstrate your services are responsive and well led
- Face challenges in some of your services
- Are developing or transitioning some new services
- Are preparing for CQC registration or inspection

Who should attend?

This programme is aimed at organisations that provide support to people in housing or their own homes including:

- **Domiciliary care**
- **Registered care**
- **Supported living**
- **Extra care housing**

We can also provide additional one day module workshops on housing options and rights for others such as:

- Carers organisations
- User led organisations
- Advocacy organisations
- Commissioners

Costs

Programme costs are based on the size and complexity of your organisation. Our basic programme costs start from £7500 + vat and travel expenses and is aimed at 15-25 people. Additional modules are available
