# Essex Crosscutting Strategic Aims

## Everyone's Essex

We are committed to building a stronger economy for the future, enabling people to build skills and reducing barriers to employment.

## Levelling Up Essex

We are prioritising children with SEND and adults with disabilities, as well as those who have not recently been in education, training or employment.

## Disability Strategy

Sets out our vision for how we, our partners and providers will support adults with disabilities to live a meaningful life.

## Education 2030 Vision

All young people in Essex will be prepared for adulthood and will have equitable access to future employment and independence opportunities. (Year of Employability and Skills (working title) via the Education Task Force)

## SEND Strategy

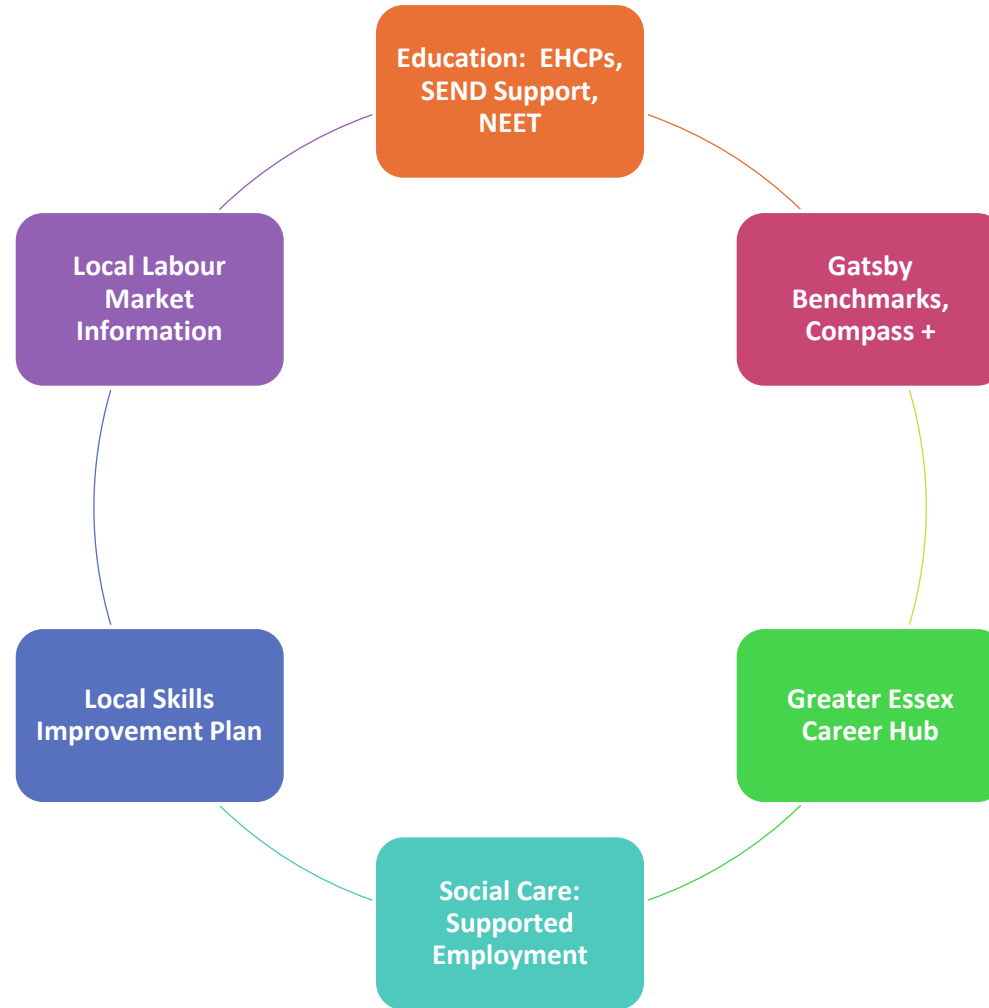

We are committed to preparing young people for their next steps towards employment and providing more meaningful opportunities post 16.

## Essex Local Skills Improvement Plan

The report sets out a detailed roadmap for change, for a Greater Essex skills system, skills system priorities and Essex sector and technical skills.

# Strategic Mapping and Matching: Qualitative and Quantitative

Data source isn't always obvious!

# Joined up Outcome Measures

- NEET (SEND) Data
- Annual Health Check
- Adult Social Care Outcomes Framework: Employment

# Essex Data Challenges and Opportunities

- Two data systems: Capita and IYSS
- Several ECC teams' involvements, linked to various authority duties
- No single source of post 16 data
- New fields for recording required: vocational profiling, EHCP employment outcomes etc
- Collective continuous improvement
- Simple Power BI dashboard
