Early Professional Development for Social Workers

Edited by Raymond Taylor, Malcolm Hill and Fergus McNeill

The central focus of this book is on the early professional development needs of social workers. It has been compiled by editors with extensive experience of social work practice, education and research. The collection examines the radical changes that have taken place in social work over the last decade within the wider context of welfare policy and practice change within the United Kingdom.

The editors have brought together a broad range of experts to provide a contemporary perspective on a wide spectrum of social work issues, taking account of legal and policy differences between England, Scotland, Wales and Northern Ireland. Each country within the UK faces similar challenges and there is much learning to be gleaned from exploring the range of social work interventions that have been developed and applied in different parts of the United Kingdom in recent years.

The book will be an important reference for social workers, managers, practitioners and social work educators, and for all those with an interest in raising standards of social work practice.
